Highest goal scoring group (A – F)	
Lowest goal scoring group (A – F)	
Highest goal scoring team – whole competition (ex penalty shoot outs)	

Scoring methodology:

For each team to qualify for the various group stages:

For teams correctly selected to progress to the last 16 (All participants will have a guaranteed 8 teams)	1 - 8 correct = score 0 pts 9 correct = score 10 pts 10 correct = score 20 pts 11 correct = score 40 pts 12 correct = score 60 pts 13 correct = score 90 pts 14 correct = score 120 pts 15 correct = score 160 pts 16 correct = score 200 pts
For each team correctly selected to qualify for the quarter finals	Each correct to score 8 pts x wgt
For each team correctly selected to qualify for the semi finals	Each correct to score 15 pts x wgt
For each team correctly selected to qualify for the final	Each correct to score 25 pts x wgt
For the team correctly selected as the winner	If correct to score 50 pts x wgt

For each group match (A – F) forecast:

Either:	The winner and the goal difference (winning margin)	If winner correct score 1 pt x wgt and only if winner correct then additional 2 pts x correct goal difference
Or:	A draw and the goals per team	If draw correct score 6 pts + difference in teams wgts + goals per team if also correct

For the highest and lowest scoring groups and highest scoring team:

Forecast the highest goal scoring group (A – F)	If correct score 35 pts (whether clear highest or tied)
Forecast the lowest goal scoring group (A – F)	If correct score 35 pts (whether clear highest or tied)
Forecast the highest goal scoring team (excl penalty shoot outs)	If correct score 70 pts (whether clear highest or tied)
